Richard Medley, Founder of RHM Global

Mr. Medley was a partner at Soros Fund Management; he initiated the global intelligence network at Soros during his tenure there from 1986–1994. In 1995, he founded Medley Global Advisors, which became the dominant political and geopolitical intelligence firm in the hedge fund and proprietary trading community. That firm was sold in 2005 to a group of private investors. RHM Global is Richard's newest endeavor seeking to provide clients with strategic intelligence on geopolitical affairs, global politics and global policy ahead of the public news cycle. Since 1985, RHM has been steadily ahead of the public news cycle in four key areas: Geopolitical, Politics, Central Banks and Currencies.
